

n8n Developer

Please go through the **Design Reference file** carefully. The goal is to design the content in the **same structure, layout, and visual style** as shown in that reference.

We have also included:

- The **raw content**, which you will use to create the final designed version
- **Images** separately, in case you need them while designing
- The **brand logo**
- The **brand colour guidelines**, which must be followed strictly

Key Requirements:

- Maintain the **same design structure and hierarchy** as the Design Reference file
- Ensure consistency in **spacing, typography, and layout**
- Use the **provided brand colours and logo correctly**
- Convert the **raw content into a polished, final designed format**
- **Instead of - RBI One | National News | January 2026** there should be **Subject name** - Economic and Social Issues and **chapter name** - Economic Growth and Development in the right side of the header
- **Watermark logo**
Dimensions $\Rightarrow$ 550px * 550px,
Opacity $\Rightarrow$ 20%
Logo $\Rightarrow$ <https://anujjindal.in/wp-content/uploads/2023/02/LOGO-CROP.png>
- **Header logo** - <https://anujjindal.in/wp-content/uploads/2022/05/LOGO-FULL-01.png>
- **Brand Colours: Blue Colour** - #1B71AC , **Green** - #2AB573

- Use **n8n** to develop and automate the workflow from raw content to final output

Let us know if anything is unclear or if you need additional assets.
